PROFILE SUMMARY

Business Analyst and Data Analyst with hands-on experience in requirements gathering, process mapping, cross-functional stakeholder collaboration, and testing life cycle execution including UAT and defect management, backed by Power Platform development (Power Apps, Power BI, Power Automate) and Six Sigma-based root-cause analysis. Redesigned two manual, spreadsheet-and-email-driven workflows into production applications at Kraft Heinz, used daily by **50+ stakeholders** across **10+ towers** and saving an estimated **1,600+ hours** a year. Skilled in technical documentation, defect management, and MIS/dashboard reporting for leadership.

TECHNICAL SKILLS

Testing & Process Analysis: UAT, Defect Management, Requirements Gathering, Process Mapping, Business Process Improvement, As-Is/To-Be Workflow Redesign, Root Cause Analysis, Cross-Functional Stakeholder Collaboration, Technical Documentation, Six Sigma

App Dev & Automation: Power Apps, Power Automate, SharePoint, Git/GitHub

Data & BI: SQL, Power BI, Advanced Excel, Pandas/NumPy

Languages: SQL, Python, JavaScript

Databases: PostgreSQL, MongoDB, MySQL

PROFESSIONAL EXPERIENCE

Kraft Heinz

KHMS/AIT Intern, GCC India

Feb 2026 – Present

Ahmedabad, Gujarat

- Led requirements gathering and end-to-end process analysis for the AIT opportunity-tracking process – ideas scattered across email, WhatsApp, and personal Excel sheets with no shared taxonomy – and redesigned it as a standardized 7-stage lifecycle (Idea through Benefit Realization) with a 3-status model and 5-level prioritization, deployed via the AIT Power App to **50+ users** across **10 towers**.
- Automated status notifications, Rate Card lookups, and weekly MIS/leadership reporting using Power Automate, eliminating an estimated **1,130+ hours a year** of manual email and reporting effort and raising Rate Card data completion from ~40% to **100%**.
- Authored technical documentation, build logs, and user manuals while driving root-cause analysis and end-to-end UAT cycles with real users, tracking defects and managing closure of **12 documented defects** prior to production rollout.
- Migrated Health Check reporting from scattered Excel files onto a governed SharePoint data model (**5 lists**), then built the Health Check and OpEx Survey app suite for **50+ users** across **11 towers**, embedding validation rules that eliminated common submission errors and saved an estimated **267 hours a year**. Also tracked process metrics (submission compliance, Realized FTEs) through a live leaderboard and administered role-based access across the platform.

Karma Technolabs

Web Development Intern

Jan 2024 – Apr 2024

Ahmedabad, Gujarat

- Enhanced search, filter, and upload functionality on a live CRM platform, conducting validation testing and contributing across the Agile development-to-deployment life cycle.

JS Placements and Fiscal Services

Coordinator

Feb 2022 – Feb 2023

Ahmedabad, Gujarat

- Coordinated research, documentation, and cross-functional communication between clients, candidates, and internal stakeholders through a standardized recruitment pipeline.

PROJECTS

CardEst | SQL, Query Optimization

- Trained a meta-ensemble model (primarily XGBoost) on the TPC-H dataset to estimate query-predicate cardinality, improving Pearson correlation and cutting query latency/resource usage in **70%** of evaluated cases.

Hybrid Stock Market Price Prediction | Data Analytics, NLP – team project

- Led planning and data infrastructure for a 3-person team, building an InfluxDB/Grafana pipeline and Streamlit/Flask apps combining numerical forecasting with NLTK/spaCy news-sentiment analysis.

ERP Dashboard | React.js, Dashboard Development

- Built a simplified ERP dashboard (React.js) covering revenue/profit/traffic metrics and sales trend charts, with full-CRUD Products/Orders management modules across desktop and mobile.

EDUCATION

DA-IICT (Dhirubhai Ambani Institute of Information and Communication Technology)

M.Tech, ICT (Software Systems) | CPI: 7.47/10

2024 – 2026

Gandhinagar, Gujarat

Gujarat Technological University

B.E., Computer Engineering | CGPA: 7.77/10

2020 – 2024

Ahmedabad, Gujarat

POSITIONS OF RESPONSIBILITY

Teaching Assistant – Software Engineering & Object-Oriented Programming

DA-IICT, Gandhinagar

Aug 2024 – Present

Gandhinagar, Gujarat

- Conducted labs and doubt-clearing sessions of 100+ students, designed and evaluated assignments/exams, and mentored students in Software Engineering methodologies, Agile practices, and Object-Oriented Programming.

ACHIEVEMENTS

- GATE CS 2024 qualifier.
